

AMERICA ONE- The US Flag Balloon

US Registration # N225YR

124,000 Cubic Feet

70 Feet tall

78 Feet long

30 Feet wide

Weight: 550 pounds

Over 700,000 3'x5' flags could fit inside 'America One'. Built in 2002 by Aeromagic, 'America One' is the worlds largest flying flag. The registration number was selected to celebrate 225 years of the United States of America.

PATRIOT- The Space Shuttle Balloon

US Registration # N1977

140,000 Cubic Feet

178+ Feet tall

115 Foot wingspan

35 Foot tall fuselage when laying down

60 Feet tall to the tip of the tail.

Weight: 992 pounds

The real shuttle would fit inside 'Patriot' which is nearly 40% larger. Patriot 's height rivals the overall height of the external center tank used at launch of the real orbiter.

Built in 2003 by Aeromagic, 'Patriot's' registration number is the year of the first test flights of the shuttle Enterprise.
